

Dominion Energy will conduct power line right-of-way maintenance in your neighborhood to maintain safe and reliable power to your property. Over the next few months, Xylem Tree Experts will do the tree-trimming and brush-cutting work along with cleanup of trimming debris in yards following the routine maintenance. The cleanup work may be scheduled after the initial trimming is complete. In some areas, another contractor will need to follow up with a herbicide treatment.

PLEASE NOTE: Herbicide is generally not applied in managed or lawn areas.

If you are renting this property, please forward this notification to the property owner.
